

Alcohol Inked Garland

Supplies:

- Your Choice Of Alcohol Ink
 - Plastic Bag
 - White or Light Color Beaded Garland
- Optional: Rubber Gloves

Directions:

1. Place your beaded garland into the plastic bag.
2. Using your choice of alcohol ink, begin squeezing drops of ink into the bag. From the outside of the bag, begin to push around the beads so that the ink coats them.
3. Continue to add drops of ink to the bag, until you are satisfied with how the garland looks.
4. You may use multiple coordinating colors to create a unique beaded garland.
5. Allow to dry in the bag, or you may take the garland out to dry. If you decide to handle the garland while it is wet, we recommend that you use rubber gloves to prevent from staining your hands.
